On page 7 of the specification, line 26, delete the phrase "with respect to shaft assembly 40" and insert the phrase - - with respect to shaft assembly 30- -.

2. The following is an examiner's statement of reasons for allowance: Medders '000 discloses a section mill for casing having an elongated cylinder assembly with first and second tubular spring biased shafts coaxially housed with the assembly have first and second blades means. However, the prior art or record fails to disclose or suggest the second blade means is brought into cutting contact first and the first blade means is allowed to fully distend only the mill advances a predetermined distance and there is no casing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
